KUSZLYK CATTLE COMPANY

A TRIBUTE TO

John P. Kuszlyk

FEBRUARY 21, 1948 - OCTOBER 24, 2017

"Today a wonderful man got his angel wings...John Kuszlyk you will be so greatly missed...what an incredible legacy you have left this world with...a loving wife and beautiful children and grandchildren....you have taught them well and you will continue to smile from heaven as they carry on the Kuszlyk Milk Hauling business and the farm just as you have shown them over the years...it was an honor to be your sister-in-law and to watch your family grow...I will miss you greatly my friend...till we see each other again...love you.

- Crystal Casper

WELCOME

We are excited to share with you our dream of presenting our bulls to you in these pages. These bulls represent our belief and dedication to breeding outstanding, functional, productive cattle that provide a livelihood for dairy breeders around the world.

We invite you to contact us about purchasing semen and cattle. We do not breed or develop cows or bulls that we do not strongly believe will improve the breed. If it isn't good enough for us, we will not sell it to you, therefore, those cattle that do not meet our high standards are not used for breeding stock.

We hope you enjoy this - our first sire book!

~Marjorie & the Kuszlyk Family

The MATRIARCH

PINESDEGE BT ALFAIR-EXP 5E-E95

There have been many great cattle in the world that have made an impact in their respective breeds. I would like to tell you a little story of a red heifer that touched our hearts and changed the American Milking Shorthorns to what they are today. My husband and I had the opportunity, as did everyone else, to purchase cattle from Pinesedge Farm, Sam and Phyllis Yoder, Shoemakersville, PA. We were only looking for a few heifers to add to our genetics. I fell in love with this beautiful red heifer. There were 14 in the group, Sam would not let us buy just one or two, we had to buy more. Before we got done, we would end up buying the whole herd, but that is another story.

Pinesdege BT Alfair-EXP 5E-E95 was bred by Phyllis R. Yoder, affectionally known as D-H. D-H, because Mr. Gordan Seward was taking care of our heifers and dry cows. He called us up one day and said "That double heart heifer is in heat", we had no idea who he was talking about. So we went down to see. Alfair had two hearts on her face, a red heart inside of a bigger white heart. So the nickname Double Heart or D-H stuck.

John and I saw how special Alfair was and what type of a future the red heifer could have. She was shown as a fall calf in Harrisburg, PA and won her class. The next year she was shown as a Fall Yearling at Harrisburg, PA standing third. That was the extent of her show career as a junior female. Her first show out as a Sr. Two year old was at Harrisburg, PA. I saw her real potential and refused to take her to any county fairs. She handled the Sr. 2 year old class with ease and went on to become Senior and Grand Champion. We had never gone to Madison before and a friend of ours suggested we late enter her. Over a lot of discussing and arguing, I finally gave in. The biggest argument was that I was not trucking her myself and had to trust in someone else to care for her. Doug and Joan Seidel were who we sent her with and they took excellent care of her. We thought we could sneak her in without anyone knowing she was coming, that didn't work, they were waiting for her at the gate. She won the Sr. 2 year old class and was Reserve Intermediate Champion. We then went onto Louisville, KY, where she again won her Sr. 2 year old class.

The next year was the first year we went back to the New York State Fair. While we were there, I always led the first cow to the Milking Quarter, as I was the only one to milk our cows. By the way, at 4:40 a.m., our little parade was not very well received. Alfair always wore a bell and as much as I tried to keep it quiet, it didn't always work. At the first night milking, again I led our little parade of 10 cows to the Milking Quarter, only this time, it was daytime, so I did not have to keep her bell quiet! A lot of breeders and caretakers came to the center aisle to see who was making all the noise and our little parade turned into a big one. As there was a lot of sudden interest in this big red cow. Every day was the same, she had a following and yes, she was Senior and Grand Champion there.

She went onto Harrisburg and repeated her class win, as well as Senior and Grand Champion. And again in the trusting care of Doug and Joan Seidel, she went on to Madison. She repeated her class win and was named Intermediate Champion. That was 1996, the year she had Othello.

In 1997, it was a repeat of the previous year, winning New York State Fair. It was that year, that a man said to his regional manager, "there was a big red cow in New York, that was owned by this lady and he thought they could get her bought," this was during Eastern States Expo. This regional manager then asked Doug Seidel if he knew anything

about a big red cow from New York. Doug said yes he did. The regional manager said they thought they could "steal" this cow away from this lady, but they did not understand the connection that I had with Alfair.

Alfair was the daughter of Prairie-Pine WRS Big Time-ET, who was a Clayside Prince Bicenten son out of Innisfail Wild Rose 158th. Her dam was Pinesedge E.D.T. Alfair 4E-E90 out of Pinesedge Alfair Carleen 3E-E90, who was Grand Champion at Harrisburg in 1981 & 1982 and was Grand Champion at Madison in 1982. Carleen was by a home bred sire, Pinesedge Rythum, who was sired by McKees Matchless Dairyman out of Pinesedge Melody, a multi-E cow and who in her own right was Grand Champion numerous times in Harrisburg. Alfair's pedigree was spectacular, so it would have stood to reason that she would have been a great cow. Alfair was one of only 12 cows to have been scored Excellent 95 in the United States Milking Shorthorn breed. She holds a lifetime milk production record of 3,088d 200,838m 5,460f 6,487p! Her highest single 305 day lactation record is at 11 years 7 months with 26,450m 737f 834p! She provided us with nine calves. Alfair delivered her last calf at 13 years 5 months old which was Mudslinger. She was never flushed. She had two notable sons, Kuszmar Alfairs Othello and Kuszmar Mudslinger E90.

Her son, Othello changed the breed! He is the #3 sire of all time offspring registered in the AMSS database and held the title of World Dairy Expo Premier Sire for 10 consecutive years plus he was the sire of several Grand Champions at the International show. He is known for his dairyness, body capacity, production and #1 bull for udders and stature. He was the sire of Gold-Mine Poppy's OT Kay 2E-E95, who is the all-time milk record holder for the breed with a 4/10 record of 305d 39,280m 1,415f 1,177p. His offspring hold numerous All-Americans, Reserve All-Americans and various Champion awards at all levels.

Her son, Mudslinger E90 has sired some incredible progeny also including Kuszmar Mercury 3E-E93 and Kuszmar Arkansas Mud EXP 3E-E95, who in their own right have built records in the milk barn as well as on the tanbark trail including Unanimous All-Americans, Grand Champion honors and Production Cow winnings.

Alfair not only was an incredible milk cow and brood cow, but she also stopped the show when she entered the ring. Her show records include in 1995 Grand Champion at Eastern National. In 1996, Grand Champion at New York State Fair and Eastern National; Intermediate Champion at International. In 1997, Grand Champion at New York State Fair, Eastern National, Northeastern National and International – she was a Triple Crown winner before we had such an award. Alfair was the All-American for Sr. 2 year old (1995); 3 year old (1996) and 4 year old (1997). Also Reserve All-American honors for Aged Cow in 1998 and 2004. We almost lost her in 1998, she showed in Harrisburg with a temperature of 104 degrees. She lost her pregnancy but we saved her. I chose to keep her on the circuit to better care for her and show morning in Harrisburg and Madison, Alfair told me whether she wanted to show or not.

She was the big red cow that changed an entire breed. Today, Alfair is buried on the Kuszlyk farm and one day, I plan to be buried beside her. We hold a connection that few will understand. PINESDEGE BT ALFAIR-EXP 5E-E95 was not JUST A COW!!

KEY:

Can Be Shown:	Full Herdbook		100% Milking Shorthorn	
	EXP		At least 75% Milking Shorthorn	EXP is suffix on papers
	Native		100% Milking Shorthorn – trace pedigree back to Coates Herdbook	N is suffix on papers
Can Not Be Shown	GE	Genetic Expansion	At least 50% Milking Shorthorn	"GE" will be prefix on papers
	GE2	Genetic Expansion – Step 2	Former 37000 females & males that do not meet color	"GE2" will be prefix on papers
	GE3	Genetic Expansion – Step 3	Full herdbook value animals that do not meet color	"GE3" will be prefix on papers
	GR	Genetic Recovery	Between 50-75% Milking Shorthorn	"GR" will be prefix on papers
	GI	Genetic Identity	Less than 50% Milking Shorthorn	"GI" will be prefix on papers
	GI2	Genetic Identity – Step 2	Offspring of GI animals	"GI2" will be prefix on papers
	GI3	Genetic Identity – Step 3	Animals that descend from Genetic Identity animals – breeding value same as GE2	"GI3" will be prefix on papers
	GI4	Genetic Identity – Step 4	Animals that descend from Genetic Identity animals – breeding value same as GE3	"GI4" will be prefix on papers
	SRB	Swedish Reds	Formerly under 36000 Genetic Expansion	"SRB" will be prefix on papers
	AR	Appendix Registered	Double registered animals from the American Shorthorn Association – their offspring out of a full herd become an Supplemental Shorthorn	"AR" will be prefix on papers
	S	Supplemental Shorthorn	Offspring of a Full Herd and an Appendix Registered – their offspring with a full herdbook gives a full herdbook	"S" will be suffix on papers
	OA	Original Animal	Original Grade Milking Shorthorn Animal	"OA" will be prefix on papers
	AOB	Any other breed		

Before the current Prefix/Suffix designation for herdbook level. Animals who currently have EXP, GE2, GE, GR, GI would have been designated as not being full herdbook by their registration number beginning with 37000, 36000 or 36500.

EXP – 37000 males that meet MS color
 GE2 – 37000 females and 37000 males that do not meet MS colors
 GE – 36000 males and females
 GR – 36000 females only that meet MS colors
 GI – 36500 males and females

Specific questions regarding breeding values of your animals, should be directed to the AMSS office.

THANK YOU

Thank you for taking the time to go through our bulls. It takes a lot of time to pull all this information together. I would like to thank the following people for inspiring me and helping me to make this bull book happen:

- My husband, John – it was always his dream to have our own Bull Book
- My daughter Marjorie Anna and my son Steven (who breeds for Genex)
- Jason Heeter, who inspired me – for the past three years has designed and put together the beautiful AMSS Bull Book
- The breeders of the bulls that we didn't breed but they made available to us to become part of our sire lineup: J.A. Elliot and Donnette Fisher (Disney); Nick Raggi, Dale & Deanna Bendig (Powerstroke); Hard Core - Keith A. & Donnette F. Fisher (Sombero); Krause Dairy, LLC – Curt and Mikayla Krause (Secretariat); and Peter Vail, Hillpoint Partners and Frank & Diane Borba (Fire Truck); and
- Last but definitely not least, my very good friends, Cheri Oechsle and her staff at Purebred Publishing and Junia Isiminger for all their hard work to make this our First Kuszlyk Cattle Company Bull Book come to life!

Love to you all and thank you again!!!!

~ Sincerely, Marjorie
